

operable to communicate at least one player controller related command requesting an operation be performed relating to said video game control signals generated by said at least one player controller; and

b
a peripheral processing subsystem, coupled to said coprocessor, and operable to receive said player controller related command and for executing said command to thereby perform said operation relating to said video game control signals.

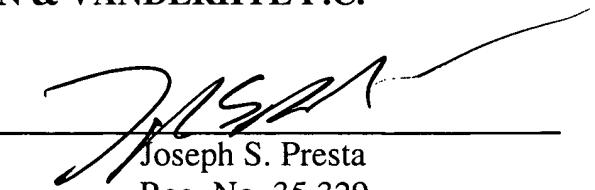

REMARKS

In view of the amendments herein, favorable reconsideration of this application is respectfully requested. By this Amendment; claims 69-83 have been cancelled and new claim 84 has been added.

Applicant respectfully submits that new claim 84 renders moot the outstanding rejections. New claim 84 is believed to patentably distinguish the prior art of record. Thus, allowance of new claim 84 is respectfully requested.

Should the Examiner have any questions regarding this application, the Examiner is invited to call the undersigned attorney at the telephone number below.

Respectfully submitted,
NIXON & VANDERHYE P.C.
